

## **SOCIETY NOTES**

### ***Membership Cards***

Some members have expressed concern that they have not been issued with new membership cards showing the expiry date of their membership. In preparation for the introduction of a two-year membership fee at the end of 1998 it was decided not to issue cards for existing members who are at present having a free year of membership. Please be assured that all payments have been recorded and no present members will be asked to pay again until their free membership is up, when new two-year cards will be issued. Those of you who have already paid for several years in advance have also had their free year credited to their account, and will not pay anything further until both free and paid-for years have expired.
