

The **SINDONE Bulletin** is the official communication channel of the **Mexican Center for Sindonology (CMS)**, whose purpose is the knowledge and dissemination of the **Shroud of Turin** (Italy).

It contains articles, translations, the CMS' activities schedule (lectures, etc.) Bibliographic Reviews, News, Transcripts of conferences, etc., written by CMS partners and by foreign Sindonologists.

In its beginnings (1983) the SINDONE Bulletin was made with a very rudimentary printing technique, since it was printed with a mimeograph. In our weekly work meetings we devoted ourselves to combining all the sheets of each Bulletin. It was stapled and later distributed to all our partners and subscribers. Personally, I would put it in a yellow envelope and send it by airmail to our contacts, collaborators and friends abroad (Italy, France, Spain, England, USA, India, Australia, etc.)

Later in the digital era, the Bulletin began to be produced in MS Word and was printed on a laser printer. Currently the newsletter is developed and distributed only in digital format via email. I take this opportunity to thank and honor all the people who have collaborated and supported since the first issue of the SINDONE Bulletin to date.

With the help and assistance of our friend Barrie M. Schwartz we present our SINDONE Newsletter on this website; with the sincere desire that thousands of Spanish-speaking people benefit from such an excellent source of information. Click on the flag image above for more information about the Mexican Center of Sindonology.

Dr. Julio Lopez Morales (Founding Partner of CMS)
