### **The Turin Congress.**

After being asked to submit their proposals for papers a year in advance of this Congress, would-be speakers have been nail-bitingly waiting ever since for news of whether those papers have been accepted for inclusion. Only as this Newsletter was going to press has it been positively confirmed that this Congress is definitely going ahead, the delay apparently being due to the ill-health of **Professor Pier-Luigi Baima-Bollone**, President of the Organizing Committee.

Entitled the III Congresso Internazionale di Studi sulla Sindone, the congress will commence at 2 pm on Friday 5th June at the Centro Congressi dell'Unione Industriale, Via Fanti 17, Turin, and will continue until the 7th. Details of the exact programme have yet to be released, but the British Society's new Honary Chairman, Dr. Allan Mills has been told that his presentation is definitely included. The Congress activities are to include a gala dinner, and on the Sunday evening there will be a special celebration Mass in the Cathedral to be followed by a special private viewing of the Shroud.

Any enquiries regarding the Congress should be addressed to Associazione C.M.S., tel/fax +39 11 542933.
